Green & Sustainability Bond Framework

Through issuing Green & Sustainability Bonds, Sparebanken Sør intends to contribute to the development of the green & sustainability bond market while highlighting its Sustainability Strategy to capital markets participants. These and other formats can be issued as different bond types, such as Green or Sustainability Bonds. The variety of different formats and types will be referred to as Green & Sustainability Bonds throughout this document.

Sparebanken Sør welcomes the increased clarity and structure which the EU taxonomy and related regulations bring to the sustainable finance market. Appreciating the comprehensive scope of current and upcoming EU regulation within the space of sustainable finance, the bank has decided to be an early adopter and to align this framework with the EU Taxonomy to the degree feasible.

The alignment of the framework with the EU taxonomy has been assessed by Sustainalytics. The framework is found to be:
