| funded at least 180 days before maturity: | n/a |
| Committed liquidity reserve for principal amount of all soft bullet bonds to be | |
| funded at least 180 days before initial maturity: | No |

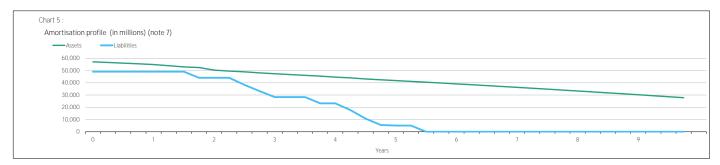

(note 1) The data reported in this PO is based on information provided by the issuer and may include certain assumptions made by Moody's Moody's accepts no responsibility for the information provided to it and, whilst it believes the assumptions it has made are reasonable, cannot guarantee that they are or will remain accurate. Although Moody's encourages all issuers to provide reporting data in a consistent manner, there may be differences in the way that certain data is categorised by issuers. The data reporting template (which issuers are requested to use) is available on request. Credit rating, F1 and TPL leavesy shown in this PO are as of publication date. (note 2) This assumes the Covered Bonds rating is not constrained by the TPL Also to the extent rating assumptions change following a downgrade or an upgrade of the issuer, the necessary OC following a 1 notch downgrade may then be substantially higher than the amount suggested here as market risks are considered more critically by Moody's at this time. In any event, the necessary OC amounts stated here are subject to change at anytime at Moody's Into This is the minimum OC calculated to be consistent with the current rating under Moody's expected loss model. However, the level of OC consistent with a given rating level may differ from this amount where ratings are capped under the TPI framework and, for example, where committee discussions are capped under the TPI framework and, for example, where more than a given rating level may differ from this amount where ratings are capped under the TPI framework and, for example, where

(note 3) must be minimum of catalates to be consistent with the current rating since involves, because on several of the constant with a given and performing event in the current rating and end performing event in a given and performing event in a given
